

Dear Fellowship church,

We are writing to provide our churches with information regarding the federal government's plan to ban so-called "conversion therapy". This bill could criminalize preaching and counseling with regard to gender. [Click here](#) to read the bill and prayerfully consider how the Lord would have you respond.

Bill C-6, if passed, could result in severely restricting the church and parents from teaching a biblical view of sexuality and gender to our children and those struggling with sexual issues. It could become law anytime within the next few weeks.

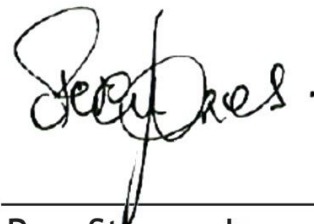

The Fellowship National Council is attempting to provide information to our churches so that members may wisely consider this legislation and, if concerned about it, call or email their member of parliament, and/or sign the petition [for the online petition, [click here](#); to print the petition and send via mail, [click here](#)], to request that this bill not pass.

Please be in prayer for our government leaders as they consider this important piece of legislation.

In Christ,

Rev. Doug Blair
Chair, Fellowship National Council

Rev. Steven Jones
President, The Fellowship
